

Azeez Ajibola Azeez

Data Analyst

Ogbomoso 210213

afwunajibola@gmail.com

+2347039872731

Highly motivated and results-oriented Data Consultant with over 3 years of experience leveraging expertise in Microsoft Suite (Excel, Power BI, Word, PowerPoint) and Python Programming language to transform raw data into actionable insights. Proven ability to collaborate effectively with various departments to identify data needs, conduct in-depth analyses, and translate findings into clear and compelling visualizations. Passionate about helping businesses make data-driven decisions for optimized performance.

Willing to relocate: Anywhere

Work Experience

Data Consultant

SDQ Global - Oyo

January 2023 to Present

- Collaborate with cross-functional teams (Marketing, Sales, Finance) to understand their data needs and challenges.
- Clean, organize, and wrangle large datasets from various sources using advanced Excel techniques (PivotTables, Macros, VBA).
- Develop interactive dashboards and reports using Power BI to enable real-time data exploration and communicate insights directly to stakeholders.
- Create compelling data visualizations using PowerPoint to effectively present findings and recommendations to leadership teams.
- Implement data-driven solutions that are driving a [Quantifiable achievement, e.g., 15% increase in customer retention rate].
- Contribute to research projects by writing reports and analyzing experimental data results.
- Craft informative and well-referenced seminar presentations with detailed information and clear visuals.
- Design professional pitch decks using Microsoft PowerPoint, ensuring they are well-bulleted, concise, and impactful.

Data Analyst

Balogun Computer Centre - Iwo

August 2022 to Present

- Conducts exploratory analysis to identify trends and patterns within datasets.
- Analyzes financial data to gain insights into financial health and performance.
- Creates reports and visualizations to communicate findings to both technical and non-technical audiences.
- Utilizes SQL to query large datasets and retrieve specific information.
- Develops dashboards to provide interactive views of key metrics.
- Leverages programming languages (like Python) to perform complex data manipulation and analysis.

Researcher

Computational and Biophysical Laboratory , Pure and Applied Chemistry Department, LAUTECH. - Oyo
January 2023 to July 2023

During my internship at Computational and Biophysical Laboratory, I had the exciting opportunity to delve into the world of computer-aided drug design (CADD) focused on developing novel antivirals, specifically targeting the common cold. As an intern, I played a contributing role in a project that explored the potential of natural compounds from Alligator pepper.

My primary task involved assisting the research team in utilizing CADD software to virtually screen vast libraries of natural compounds. This involved preparing the target proteins for docking simulations and analyzing the interactions between these proteins and potential drug candidates.

The highlight of my internship was being part of the team that identified several promising phytochemicals from Alligator pepper as potential leads for treating the common cold. This involved analyzing the docking scores and key interactions between these phytochemicals and the viral target protein. My contribution involved meticulously compiling and documenting these findings, which were crucial for further development.

This internship experience not only equipped me with valuable skills in CADD techniques but also instilled in me a passion for scientific discovery. Being part of a team that identified promising leads for a common yet bothersome illness like the common cold was incredibly rewarding.

Teaching

A1 Comprehensive Grammar School - Iwo
July 2018 to October 2018

Education

Post-secondary (technical & vocational) in Data Analytics

Balogun Computer Centre - Iwo
August 2022 to February 2024

Graduate in B.Tech Medical Biochemistry

Ladoke Akintola University of Technology - Ogbomoso
October 2018 to February 2024

Secondary School in Science

A1 Comprehensive Grammar School - Iwo
October 2015 to June 2018

Skills

- Microsoft Office (4 years)
- Microsoft PowerPoint (2 years)
- Microsoft Excel (Advanced - PivotTables, Macros, VBA) (4 years)
- Microsoft Office word (4 years)
- Structured Query Language (2 years)
- Corel Draw (2 years)
- Basic Calligraphy (4 years)

- Mentoring & Tutoring (5 years)
- Microsoft Power BI (Advanced - Report building, data visualization) (3 years)
- Python Programming (1 year)
- Problem Solving (4 years)
- Communication (written and verbal) (5 years)
- Time Management (Advanced) (5 years)
- Teamwork (3 years)
- Critical Thinking (Advanced) (5 years)
- Data Analysis (Advanced) (4 years)
- Discovery Studio (2 years)
- PyMol (2 years)
- AutoDock (2 years)
- AdmetSar 2.0 (2 years)
